Recycling Non-Mandated Materials	5 to 20

Priority action. Schools must complete at least two priority actions to achieve certification.

Mandatory action. The district or schools must complete the Green Team action to achieve certification.

District-only action. District actions earn points for all registered schools in the district.

School-only action.

Digital Schools action.

Visit www.sustainablejerseyschools.com for more information about the requirements for adding Digital Star Recognition to Bronze or Silver certification.

Parallel action in the Sustainable Jersey municipal certification program. Visit the participating town map at www.sustainablejersey.com to find contact information for your local municipal green team to explore working with them on this action.

Please note: Program actions and points may be subject to change. For the current official list of actions and points visit the website.

Sustainable Jersey's certified schools are national leaders in addressing key sustainability challenges. By equipping students with the knowledge and skills needed to understand these challenges, such as the impacts of climate change, they are building the next generation of climate literate leaders, including policymakers, scientists, teachers, entrepreneurs and more, who will develop solutions and lead the green economy.

We are facing a critical time in the mission to achieve a sustainable New Jersey. The earth's warming over the next decade is unavoidable. Rising sea levels, increasing temperatures, shifts in rainfall and storm patterns, and chronic flooding are a few of the changes impacting our economy, health, environment, and society. Once a seemingly abstract concept, climate change is a reality impacting schools.

The New Jersey Board of Education adopted Student Learning Standards in June 2020 incorporating K-12 climate change education across content areas. Sustainable Jersey for Schools supports districts and schools as they embrace the new standards and prepare students to address the causes and impacts of climate change today and in the future.

With more than 67% of school districts and over 1,100 schools in New Jersey registered, the Sustainable Jersey for Schools movement is bigger than ever. Don't miss your chance to:

SAVE MONEY. GET MONEY. IMPROVE THE SCHOOL ENVIRONMENT.

- Access free guidance and technical assistance to reduce energy costs, cut waste and positively impact student and staff health and wellness
- Participate in free training workshops, webinars, and leadership meetings
- Apply for Sustainable Jersey grants

ENHANCE STUDENT LEARNING. PREPARE THE NEXT GENERATION. EMPOWER CLIMATE LEADERS.

- Promote energy efficiency through lesson plans, hands-on activities, and competitions
- Learn how to integrate climate change education into curriculum across content areas and grade levels
- Use your school and community as learning labs to implement place-based projects addressing the NJ specific climate change effects
