RE: District Green Team for the 2016-2017 School Year

Dear Sustainable Jersey for Schools:

The district level Green Team was formed in January 2015, and has continued to work together through the 2016-2017 school year. The mission of this team is to support, drive and coordinate the efforts of the individual school Green Teams.

Our mission is to not only incorporate sustainability into our operational and business practices to the extent of economic and practical feasibility, but to make it an integral part of the student's educational experience. The district level Green Team will seek to preserve natural resources while balancing social, economic, and environmental issues.

As a leadership body for our efforts, we organized the district level team with various personnel including a BOE member, administrators, teachers, secretaries and custodians. The Facilities Manager was appointed by the BOE as a liaison between the district and Sustainable Schools for New Jersey and serves as a standing member on the district team as well as both individual school teams.

Membership on the District Level Green Team for the year has included:

- Victoria Shoemaker, Representative of the Tabernacle Board of Education
- Glenn Robbins, Superintendent of Schools
- Jessica DeWysockie, School Business Administrator/ Board Secretary
- Susan Grosser, Principal, Kenneth Olson Middle School (OMS)
- Gerald Paterson, Ed.D., Principal, Tabernacle Elementary School (TES)
- Keith Higginbotham, Facilities Manager
- Heather Petersack, Teacher OMS, (NJEA Representative)
- Jane Francis, Teacher TES, (NJEA Representative)

Sincerely,

Glenn Robbins
Superintendent of Schools
