Dear! Test School A (Atlantic):

Thank you for submitting a Sustainable Jersey for Schools application. We have completed the first round of reviews. Based on past certification cycles, it is typical that only a small percentage of actions get approved after the first round. There are two more review rounds in this application cycle.

 Do not resubmit an action if it has not been updated (unless it is needed to get the submit button to turn yellow)

 You may need to combine multiple documents to stay within the 6 document limit

Save online links as PDFs

#### Be Ready for the Limelight!

Once you are certified your information becomes publicly accessible on the website

- Inspire others! Tell a story in your narrative
- Remove sensitive information before uploading your documentation
- Remove irrelevant or outdated documentation
- Only upload parts of documents that are needed (e.g. not the entire policy handbook)
- Name your documents when uploading

#### **District and School Collaboration Required**

There should be coordination between those working on the district application and those working on school applications

- Need to determine at what level "Both" actions
   will be completed (If an action status is changed from "Unplanned" in the district application, then schools are shut out from doing that action in their applications)
- District application needs to be completed in same time frame as school applications
- District applications must be submitted to have actions completed by district reviewed.

#### **Green Team Mandatory Action**

Your **Green Team** action must be approved at the District or School level in order to become certified! WHAT TO SUBMIT:

- Letter Establishing the Green Team
  The letter must identify at least two green team members selected by the local building union leadership for a School Green Team or by the district union leadership for a District Green Team
- Green Team Annual Report with 4 meeting dates

Significant undercount of those under the age of five.

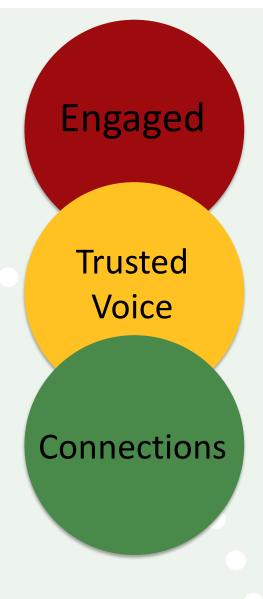

Influence student readiness for learning, enhance student learning across subjects, boost statistical literacy and data-finding skills.
