

## Sustainable Jersey for Schools 2018 NJSBA Conference Presentations

Click on the name of the session to download the power point presentation.

### [Building Student Leaders in Sustainability](#)

It was Mahatma Gandhi who said "Be the change you wish to see in the world." The program directors of Eco-Schools USA and Sustainable Jersey for Schools highlight examples of students across New Jersey who are taking that saying to heart and leading sustainability efforts in their schools. Learn how your school district can provide structure and support to empower students to "be the change."

### [Multiple Benefits of Energy Efficiency](#)

It is well known that energy efficiency upgrades save energy and money; this session focused on the multiple benefits of energy-saving programs. Find out how planning for an Energy Savings Improvement Program (ESIP) to finance efficiency upgrades can be leveraged to enable other related projects for improvements at the school. Learn how Sustainable Jersey for Schools and the PowerSave program promotes learning and energy savings behaviors for students, and hear how teachers and administrators are leading in achieving energy savings and improving schools through innovative efficiency efforts.

### [The Grass is Greener with Grants](#)

Sustainable Jersey for Schools has provided more than \$1 million in small grants to participating schools. Learn about the exciting projects being undertaken by schools and school districts and how your district can obtain funding for sustainability projects in 17 category areas related to people, the planet and prosperity in your school.

### [Sustainability Champions](#)

Learn from schools and districts in the forefront of sustainability. This session highlights best practices and case studies from this year's award-winning districts and schools participating in the Sustainable Jersey for Schools program.
