[Transforming School Culture & Operations](#)

Featuring certified school leaders from Long Branch & Hazlet Township Public Schools Hear from schools certified with both the Sustainable Jersey for Schools and the former FRS-NJ program as they share how using the structure of a certification program enhanced student learning, improved operations, increased interdepartmental communication and saved money for the district. Take advantage of financial and technical resources offered by the new Sustainable Jersey for Schools Digital Schools program and learn how you can plan for certification in 2020 and beyond!

[Energy Savings Through Upgrades and Education](#)

Featuring certified school leaders from Delran and Winslow Township School District The panel will provide engaging and inspiring examples of engaged student learning about energy as well as improving the learning environment through energy upgrades on school facilities. The session highlights the PowerSave energy curriculum program as well as the NJ Board of Public Utilities Energy Savings Improvement Program (ESIP).
