

## Sustainable Jersey for Schools 2024 NJSBA Conference Presentations

Click on the name of the session to download the power point presentation.

### [Using New Jersey's School Climate Survey and Platform](#)

Learn about the New Jersey School Climate (NJ SCI) Survey and Platform, a free resource from Rutgers University and the New Jersey Department of Education, for school climate improvement. Hear from schools that have used NJ SCI resources and learn how school climate efforts relate to Sustainable Jersey for Schools certification.

### [Securing Funds: Technical Assistance for School Energy Upgrades](#)

Sustainable Jersey provides free technical assistance to help schools upgrade energy equipment. Its technical assistance team will collect utility data, analyze your school district's energy usage, identify incentive options for each facility, and support the school district in completing program applications. This session will include an overview of incentive programs.

### [R'EViNg Up: Electric School Bus Adoption Strategies](#)

State and federal funding for electric school bus adoption and the necessary charging infrastructure is available, so now is the time to think seriously about changing fleet transition to electric! There are numerous factors and steps to consider, and our speakers will share their firsthand experiences.

### [Fostering Digital Excellence: Advancing Education in a Digital Age](#)

As technology evolves, questions arise about the role it should play in the classroom. How do we enhance and optimize learning experiences while preparing students for a technology-driven future? From harnessing AI to fostering digital citizenship and improving technological infrastructure, discover how to embrace the classroom of tomorrow.
